WOOD & ORIGIN

Ash and ebony selected by hand in Heino, Salland

Today is a great day to play guitar.

THE BUILD

From raw wood to one-of-one

01 · RAW BODY

The mahogany body blank, freshly cut and ready to be shaped by hand.

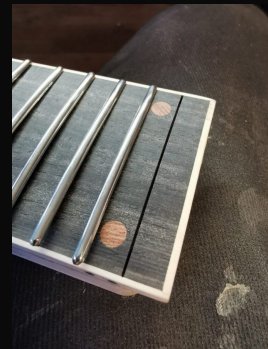

02 · CARVED TOP

The body top carved and contoured — where the platform for the Crown of Thorns begins.

03 · FRETTING

Frets pressed into the ebony fingerboard, one at a time.

04 · FRET DRESSING

Every fret end rounded, levelled and polished by hand for a fast, smooth feel.

05 · INLAYS

Inlay work set into the board — the small details that make it unmistakably Schotman.

06 · NECK & HEADSTOCK

The neck carved and the headstock shaped, ready to carry the Schotman name.

THE BUILD

07 · NECK COMPLETE

Fingerboard, frets and neck finished and checked.

08 · IN THE PAINT BOOTH

Into Robert's own booth — where the finish and hand artwork are sprayed.

09 · CUSTOM PAINT

The gradient finish and Crown of Thorns artwork, applied by hand.

10 · COMPLETED

Assembled, wired and set up — one of one, ready to play.

ONE OF ONE
